

A PaaS solution from Rackspace Government Solutions delivers FedRAMP availability and integrity to a large system integrator in Arlington, VA

Challenge

This customer sought a faster, more secure, low-cost Federal Risk and Authorization Management Program (FedRAMP) environment to host a key training application.

Solution

Amazon Web Services (AWS), AWS GovCloud, cloud infrastructure, cloud migration

Achievement

Our purpose-built FedRAMP-compliant PaaS successfully positions customer applications in AWS and meets specific IAM, communications, data security, audit and other FedRAMP moderate requirements.
